

# Our Paper Dumpster is Hungry!

Glebe Street Elementary School and GreenFiber's and Community

## Paper Recycling Program

As the largest producer of cellulose insulation in North America, GreenFiber helps schools like Glebe, as well as businesses and other organizations, with their paper recycling needs. They are helping us to continually look for new and innovative ways to collect paper to make our end product. Our recycling program not only gives us a active within our local gives us a way to educate youth on the create a greener money in the process!

Please bring your GreenFiber dumpster

to discard of clean paper and newspapers (no cardboard or plastic, please). By clean paper, we mean ANY PAPER that is not soiled heavily (junk mail, printer paper, construction paper, craft paper, newspaper, etc.). If we can improve our paper recycling tonnage we will be able to keep our GreenFiber dumpster on school grounds. This will both help us to continue our recycling program with GreenFiber, and collect funds from them for doing so! It's a win-win program!

way to become more community, but also importance of recycling, community and raise

paper to the Glebe any time that you need

**We hope that you will join us in our recycling efforts! Thanks!**
